## Data Retention Policy

Information Governance (IG) Services.

## **Data Retention Policy for Old Park School**

**[The information contained in this guidance document is for use by schools when developing their Data Retention Policy. YourIG would consider this document as “best practice” guidance as opposed to definitive legal guidance. As such it is an indicative guide only and that it remains the responsibility of the school to determine the appropriate retention periods of records and to seek legal advice if there is any doubt.]**

### **Legal Obligations**

Article 5 of the UK General Data Protection Regulation defines the principles relating to the processing of personal data. Article 5, 1(e) states.....

*‘Personal data shall be kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes in accordance with Article 89(1) of the applied UK GDPR subject to implementation of the appropriate technical and organisational measures required by the applied UK GDPR in order to safeguard the rights and freedoms of the data subject (‘storage limitation’)*

Data Protection Act 2018, Chapter 2, Section 90 sets out the fifth data protection principle (*requirement that personal data be kept for no longer than is necessary*).

To this end, the School and the School Governing Body has adopted the Policy as specified below.

### **Purpose**

The purpose of this policy is to provide a statement of intent on how the school intends to manage its data in terms of retention.

The policy is underpinned by the UK GDPR Article 5 1(e) and Data Protection Act 2018 ‘storage limitation’ and ‘data minimisation’ Principle, in respect of hard copy and electronic information.

## Scope

The school is aware that at present there isn't a sector wide data retention policy guidance document. However, there are examples of best practice which the school follows including the Information and Records Management Society (Information Management Toolkit for Schools) (the school has a link from its Pupil Privacy Notice to the Toolkit).

It is the intention of **Old Park School** to ensure that all records and the information contained therein are:

**Accurate** - records are always reviewed to ensure that they are a full and accurate representation of the transactions, activities or practices that they document.

**Accessible** - records are always made available and accessible when required (*with additional security permissions for selected staff where the document content requires it*).

**Complete** - records have integrity in terms of content, context and structure.

**Compliant** - records always comply with any legal and regulatory record keeping requirements

**Monitored** – staff, and system compliance with this Data Retention Policy is regularly monitored to ensure that the objectives and principles are being complied with and that all legal and regulatory requirements are being adhered to.

## Data Retention

The school recognises that data retention is based on justification, i.e. if the school can justify it, the school can keep it!

The school also recognises the following:

- (1) Why it is holding the data in the first instance (please refer to the school's Privacy Notice)
- (2) The legal duty to retain the information for a set period of time
- (3) The need to transfer data from one school to another and in doing so whether there is still a requirement to keep the information
- (4) It's actual responsibility, i.e. is appropriate long-term retention is someone else's job such as the receiving institution or local authority?
- (5) Expectations of Ofsted and what they expect in terms of the length of time schools can perform detailed reporting

- (6) In some instances, the use of aggregated data (counts of pupils) or de-personalised data (individual rows but with names and other identifiers removed)

### **Data Retention Housekeeping**

For all data and records obtained, used and stored within the school, we: -

- (1) Carry out periodical reviews of the data retained, checking purpose, continued validity, accuracy and requirement to retain
- (2) Establish and verify retention periods for the data
- (3) Have processes in place to ensure that records pending audit, litigation or investigation are not destroyed or altered
- (4) Transfer paper based records and data to an alternative media format in instances of long retention periods (*with the lifespan of the media and the ability to migrate data where necessary always being considered*)

### **Information Asset Register**

All data assets have designated owners to ensure accountability and a systematic approach to data retention and destruction. The Information Asset Owners are identified in Old Park School Information Asset Register.

The Information Asset Register identifies the data asset, data asset owner, lawful basis for processing personal data, access and security, format, retention periods, risks/impacts, data protection impact assessments undertaken and whether a privacy notice is in place. It also records any data breaches against the information asset.

### **Data Retention Schedule**

Data Protection Law does not impose specific limits or prescriptions on periods of retention for any data. Nevertheless, the school recognises the importance to put in place a Data Retention Policy to demonstrate compliance with the 'storage limitation' principle. It also recognises that the retention of data varies greatly with the different area of administration of school life.

The Data Retention Schedule ([Appendix 1](#)) which forms part of this policy has been arranged broadly into three periods of data retention:

### **SHORT TERM RETENTION PERIOD:**

- One month after the event about which the school has created data is active, in order to ensure any 'loose ends' are tied up, e.g. data retention around CCTV images being retained for 30 days unless requested as part of an incident and then stored and archived for 12 months.

### **MEDIUM TERM RETENTION PERIOD:**

- One year after the pupil to whom the data relates has left the school, in order to ensure smooth 'handover' activity related to the child if passed on to a subsequent school.
- For 6 years after a pupil has left school, to support longer term but detailed analysis of progress, attainment, support for different pupil groups etc.

### **LONG TERM RETENTION PERIOD:**

- Long term, until the child is 25 years of age or older, for instances where detailed information about activities in school may form an important part of safeguarding for that individual or where records of special educational needs are held and to maintain a record of SATS and exam results.

[Appendix 2.0](#) specifically highlights the Data Retention Schedule which may be applied to data held within a Management Information System (MIS).

Whilst the Data Retention Schedule draws on recommended "best practice" retention periods from the IRMS Schools Toolkit and the Department for Education Data Protection Toolkit for Schools, this Data Retention Policy takes into account that there is not a definitive standard across the sector. It also uses other best practice retention guidelines from within the sector.

Where there is any ambiguity or doubt over the retention period of records then Old Park School has sought legal advice.

### **Data Destruction**

All information of a confidential or sensitive nature will be destroyed in a secure way. This ensures that **Old Park School** is compliant with Data Protection Law and recognises the duty of confidentiality.

**Old Park School** is committed to the secure and safe disposal of any confidential waste and information assets in accordance with the school's contractual and legal obligations and that the school does so in an ethical and compliant manner.

**Old Park School** confirm that our approach and procedures comply with the laws and provisions made in the UK General Data Protection Regulation (UK GDPR) and that staff are trained and advised accordingly on the procedures and controls in place.

The school will maintain a record of disposal of information assets.

[Appendix 3.0](#) of this policy provides a record of disposal used by the school.

### **Outcomes**

By implementing the Data Retention Policy, **Old Park School** the School and Governing Body will:

1. Support the efficient and effective use of the school's infrastructure through appropriate data storage
2. Minimise the risk to personal data through data minimisation
3. Avoid inaccurate or duplicate data
4. Meet legislative and regulatory requirements for the deletion of data
5. Meet the requirements of Data Protection Law

## APPENDIX 2.0: Data Retention Schedule interpreted and summarised for Management Information Systems

### Former and Current Roll Pupils

**Special School Pupils** Retain data for 25 years after the DOB of child. E.g. Pupil left school whose DOB was 1/1/2010. Although pupil is on former roll do not delete until the pupil is 25 years old, therefore the record should not be deleted until 1/1/2035. This is necessary to ensure any safeguarding data is retained (*SEN records is DOB + 25 + 6 years*)
